### Congress Debates Consumer Prices

CAPITOL HILL (UPI) - Heated discussion marked the House floor today as Congress debated the state of consumer prices. Many congressmen complained that the average American just can't afford a new house at today's price of \$19,820.00.

Split along party lines, many Republicans felt that fifty-three cents for a half gallon of milk was a solid consumer bargain, while Democrats pointed out that sixty-seven cents for a pound of bacon was too expensive for many. Since the average U.S. worker now earns a record annual wage of \$6,569.00, many members of the House felt that twenty-one cents for a loaf of bread was quite affordable.

President Lyndon B. Johnson noted that while ten pounds of potatoes had risen to seventy-six cents, he said that the American public had, in 1964, more buying power than ever before.

### Astronomers Note Full Moon

U.S. NAVAL OBSERVATORY - Heralding the birth of YOUR NAME HERE was the full moon. Because YOUR was also born during the month of December, this moon is also known as a so-called "Cold Moon".

Today, Friday, the Moon's illuminated side is facing the Earth. The Moon appears to be completely illuminated by direct sunlight. The lighted side of the Moon faces the Earth. This means that the Earth, Sun, and Moon are nearly in a straight line, with the Earth in the middle. The Moon that we see is very bright from the sunlight reflecting off it.
